

## ESFFL Free Agent List

ESFFL Free Agent lists will no longer be published on the ESFFL Website for the 2026 season. This is primarily because these historical lists are static and become inaccurate shortly after being published. Going forward please use the My Fantasy League.com website to view free agents. This is the link to the MFL website: [Fantasy Football: Eastern States Fantasy Football League](https://www.fantasyfootball.com/)

There are several reports you can use to search free agents. A few of these reports are listed below:

- League/All Reports/Top Performers-Player Stats - Once in this report, select “Free Agent” in the second drop-down box from the right. Fill in the other drop-down boxes as you wish.
- League/All Reports/Complete Free Agent Listing – This report lists all free agents in alphabetical order.
- League/All Reports/Player Search – You can use this report to find the status of any individual player. Once in the report, type in the player’s name in the drop-down box and click the Now! Button. The teams owning said player will be listed. If the player is a free agent, you will see a “FA” next to their name.

Please keep in mind that a player can be a Free Agent and still not be available to be added to your team. If a player is dropped in an earlier transaction in a current week, they are “locked” and cannot be added until the following week. To see which players are locked at any given time, you can run the following report: League/All Reports/Locked Players
